Invitation to Child Health Clinics

September 2011 to
June 2012

- ♥ for families with children aged newborn to six years
- ♥ health care professionals offer health information, childhood immunizations*, consultation and screening regarding children's growth and development, dental health*, and speech
- ♥ the Parent's Corner features different parenting information each month

Immunization and Dental
Screening by appointment only

CHILD HEALTH CLINIC COMPONENTS

NOTE: **No appointments necessary except for immunization & dental screening.**

GROWTH AND DEVELOPMENT

A Public Health Nurse will briefly address questions and concerns regarding your child's growth and development, including speech. Screening tools, breastfeeding support and infant weights are also available.

IMMUNIZATION - ***By appointment only***

Call your local Health Unit office for an appointment. A Public Health Nurse will consult with you regarding your child's immunization status and immunize your child as necessary – it is important that you bring your child's Ontario Health Card and a copy of your child's Immunization Card to the clinic.

DENTAL - ***By appointment only***

Call Dental Services at 613-735-8661 for an appointment. A Health Unit Dental Hygienist will provide a dental screening assessment and discuss your child's dental health.

PARENT'S CORNER

Parent's Corner features resource information and displays on child health and parenting issues such as healthy eating.

SPEECH

Sprouting Speech is the Preschool Speech and Language Program for young children and their families who live in Renfrew County. Speech and language screening is offered at selected Child Health Clinics in partnership with the Sprouting Speech Program. Refer to the list on the other side of this pamphlet. For more information, phone 613-732-7007 or 1-888-421-2222.
