

A Real Example of COVID-19 Contact Tracing: IN THE WORKPLACE

Renfrew County and
District Health Unit

One individual with COVID-19 attending the workplace led to:

- 18 individuals testing positive
- 189 high-risk contacts requiring self-isolation and testing
- 1 workplace outbreak
- 2 school outbreaks

*To avoid double counting, this graphic only shows individuals in the setting where they were initially exposed to the virus and not counted again in the setting where the virus was spread to their close contacts (e.g. household)
