COVID-19 Vaccination Appointments Now Open to Seniors 75 Years of Age and Older

After tremendous uptake for COVID-19 vaccination in the 80+ population, the list of those eligible to register for vaccination appointments now expands based on two categories:

A) Eligible people who can register and book an appointment based on availability of vaccine:

- 1. People born in 1946 or earlier (75 years of age and older).**
2. All residents and staff of congregate living residences.
3. Faith based leaders who as part of their regular role are at increased risk of exposure to COVID-19 through close contact with persons and families in the following circumstances:
 - End of life care.
 - Care of the deceased, funerals, bathing, or other ceremony with direct contact with deceased persons.
 - Home visits to unwell persons.
Pastoral care in hospitals/LTC/RHs or other vulnerable settings.
4. Long-Term Care and Retirement Home essential caregivers.
5. Indigenous residents (on or off reserve) 18 years of age and older.
6. All health care workers.
7. Anyone receiving chronic home care that have been identified by home health care organizations. This group will receive a call notifying them that they are eligible and should book after receiving this call.

Registration and booking means that you are eligible to sign up and receive a vaccination appointment.

B) Eligible people who can register only at this time (cannot book an appointment yet):

- 1. Residents in the general population born between 1947 and 1951 (70 to 74 years of age).**

Register only, means that **you cannot book appointments at this time**. This ensures that residents are readily available should RCDHU receive extra vaccine, and so that staff can plan and prepare for upcoming vaccination clinics. Residents on the 70 to 74 years of age **registration only list** may receive calls offering vaccination if extra doses are available at clinics.
