

Renfrew County and District Health Unit

Tracking Tool for Community Garden Coordinators: COVID-19 Requirements

This tool will support community garden coordinators to:

1. Keep an updated list of community garden members and their contact information.
2. Confirm that each member has read and understood the current requirements and relevant documents before accessing the community garden.

If a community garden member becomes ill with COVID-19, Renfrew County and District Health Unit might need to contact the community garden coordinator to do contact tracing.

Each gardener using the garden for the 2021 season needs to:

- a) Confirm that they have read, understood and agree to follow the requirements in [COVID-19 Guidance for Safe Community Gardening](#).
- b) Provide you with any updates to their contact information.

Thank you for the service you are providing to the community during challenging times. We appreciate your efforts to keep community gardens safe! If you have any questions, please feel free to reach out to a Public Health Inspector at 613-732-3629.

Gardener's Name	Date that the gardener has read, understood and agreed to follow the requirements in " COVID-19 Guidance for Safe Community Gardening "	Current Contact Information	Notes
