

School Vaping Resource 2025-26

Renfrew County and District
Health Unit

This resource is designed to support educators in teaching vaping related curriculum, increase awareness of legislation and enforcement around smoking/vaping, as well as cessation supports available to those who want to quit.

Ontario Physical and Health Education Association (OPHEA)

Vaping Education Resources have been developed to provide educators with capacity building tools and conversation starter prompts to support students in developing the knowledge and skills needed to make informed decisions to support their health and well-being.

Includes:

[Instructional Moments Videos](#)

[Conversation Starter Videos](#)

[Conversation Tip Sheets](#)

[Additional Resources](#)

Not An Experiment (NAE)

A comprehensive vaping prevention, education and cessation resource that covers:

- [Information](#) about vaping (what are vapes, risk to health, ingredients, signs of vaping, statistics)
- [Health Effects](#) discusses how vaping affects physical and mental health, especially for youth, the difference between smoking and vaping, nicotine, youth access and the law
- [Resources](#) for elementary and secondary classrooms and schools including teacher education, lesson plans, interactive activities, vaping on school property resources and announcements
- [Industry Denormalization](#) discusses Big Tobacco/Big Vape and targeted marketing
- [Mental Health Effects](#) discusses nicotine and stress, anxiety, depression and coping

NOT AN EXPERIMENT

School Vaping Resource 2025-26

Renfrew County and District Health Unit

Educator Training to Support Youth

Quash Adult Allies – Facilitator Training

“Every kid is one caring adult away from being a success story.”

– Josh Shipp

Caring allies can play a key role in supporting youth to quit smoking or vaping. The free Quash Facilitator certificate training equips educators or other school staff to deliver a cessation program to students in their schools. Even if you do not plan on facilitating groups, this training will provide valuable information about youth vaping.

Quash - Brief Conversations Training

Brief Conversations are a quick and easy way to support youth who vape to quit or consider changing. Developed by public health experts from Ontario Public Health Units and the Lung Health Foundation, this toolkit helps you talk to youth about quitting vaping in under 3 minutes with two steps:

1. **ASK**

and then

2. **ACT:**
